Beita - Nablus, Palestine

Education

- **Beita Boys School**
Completed High School Exam (Tawjihi) in 2019
Score: Excellent
- **An-Najah National University**
Computer Engineering
Started in 2019
Still Studying
Score: Very Good

Skills

- Programming Basics:
C & C++, Java, OOP, Data Structures, Algorithms, Design Patterns.
- Front End:
HTML5, CSS3, Sass, Bootstrap5, Javascript, React Basics and Flutter.
- Back End & Data Base:
PHP, Node js, Sql Server, Mysql and Firebase.
- Communication Skills & Critical Thinking.

Experiences

○ Courses

I have completed several courses on platforms such as YouTube and Udemy, and learned programming tutorials from major channels such as Codevolution, Elzero Web School, and Net Ninja. I've also explored more knowledge on programming sites like W3Schools, GeeksforGeeks, and Javatpoint. In parallel, I improved my problem-solving skills with personalized training on platforms like HackerRank, LeetCode, and Codereferences.

○ Projects

I implemented many projects at the end of many of the courses that I was learning in order to master them well, and the projects were diverse, such as projects on programming languages, projects on the web, projects on mobile phones, and also a programming graduation project entitled RedHouse, which is a web. It was implemented using React, and mobile it was implemented using Flutter, while the backend was implemented in C# and ASP.Net.

Languages

Arabic: Native Language.

English: Good.
